Philosophy Applied™

Wearier Canon™ *as Witness*

Philosophy Applied™ is a gateway to the engagement of *The Wearier Canon* ("the Canon") with contemporary events, institutions, and inquiries — the philosophical framework developed across *the Canon* and its *ANOMALY? Corpus* meeting the world at the moments the world requires it. *The Canon* was not constructed in anticipation of any particular application. It was developed from within its own necessity, and the framework arrived at its applications rather than being constructed for them. The series collected here is the glow of a completed process illuminating what it reaches, when it reaches it.

The *Wearier Canon* as witness.
